O&d/- **Dr. Pola Bhaskar**
COMMISSIONER OF COLLEGIATE EDUCATION

Dr. K. Sudha, a Lecturer in Hindi, has been invited to attend a prestigious two-day international conference at Tribhuvan University in Kathmandu. This event brings together scholars and experts from around the globe to discuss and share insights on various topics. Dr. Sudha's participation highlights her academic contributions and commitment to advancing the field of Hindi studies. The conference offers a valuable opportunity for networking and professional development. Her involvement underscores the importance of cross-cultural academic exchange.

Visited NIT ,Tadepalligudem for research work

Sri K. Venkanna, a dedicated Lecturer in Physics, recently visited NIT-Tadepalligudem to submit and validate his research work, a critical step toward the successful completion of his ongoing PhD program. This visit was an essential part of the rigorous academic process, ensuring that his research meets the high standards required for doctoral studies. At NIT-Tadepalligudem, Sri Venkanna engaged with leading experts and scholars, presenting his findings and undergoing thorough validation. This collaborative environment provided him with valuable feedback and insights, reinforcing the robustness and accuracy of his work.

The submission and validation of his research mark a significant milestone in Sri K. Venkanna's doctoral journey. This process underscores his commitment to academic excellence and his dedication to advancing knowledge in the field of Physics.

Participated in Faculty Development Program

Sri K. Venkanna, a dedicated lecturer in Physics, recently participated in an enriching one-week virtual Faculty Development Program. The program, titled "Fundamentals and Advances of Magnetic Materials," was held from May 20-24 and was organized by the esteemed Chaitanya Bharati Institute of Technology in Hyderabad. This program provided a platform for educators and researchers to delve into the latest developments and foundational concepts in the field of magnetic materials. Through a series of interactive sessions and expert-led discussions, participants were able to enhance their understanding and teaching methodologies related to this critical area of physics.

Successfully completing EDX courses.

P.K. Kannan, PhD

The students and faculty of the college have successfully completed courses offered by edX in collaboration with APSCH, following the recommendations of the Commissionerate of Collegiate Education (CCE). These courses were carefully selected to enhance the educational experience and provide valuable skills and knowledge. By engaging in these programs, both students and faculty have expanded their academic and professional competencies. The successful completion of these courses reflects their commitment to continuous learning and improvement, aligning with the educational standards and objectives set forth by CCE. This collaborative effort highlights the college's dedication to fostering a culture of excellence and innovation in education.

**SOCIO ECONOMIC SURVEY FOR CSP PROJECT BY
DEPARTMENT OF BOTANY**

The Department of Botany, in collaboration with its dedicated faculty and enthusiastic students, is conducting an extensive socio-economic survey as part of a community service project. This initiative aims to assess and understand the socio-economic conditions of the local community, focusing on various factors such as income levels, education, employment, and access to healthcare. By collecting and analyzing this data, the department seeks to identify the key challenges and opportunities faced by community members.

This project not only provides valuable insights that can inform future community development programs but also offers students practical experience in field research and data analysis. The survey results will help tailor specific interventions that address the community's needs, promoting sustainable development and improved quality of life.

Awareness meeting on CSP by Department of Chemistry

The Department of Chemistry recently organized an awareness meeting on the Community Service Project (CSP), which saw active participation from both faculty and students. This meeting aimed to inform and engage the department's members about the objectives, activities, and expected outcomes of the CSP. The session included presentations on past successful projects, showcasing the tangible impacts of community service initiatives led by the department.

Students participated enthusiastically, eager to learn how they could contribute to the CSP. They discussed potential areas of focus, such as environmental sustainability, public health, and education, and brainstormed innovative solutions to community problems. The meeting also served as a platform for students to express their ideas and collaborate with faculty on project planning and implementation. By the end of the session, there was a palpable sense of excitement and commitment among participants. The awareness meeting not only highlighted the significant role that the Department of Chemistry can play in community development but also fostered a spirit of teamwork and collective action.
